

# Manifesto Summary

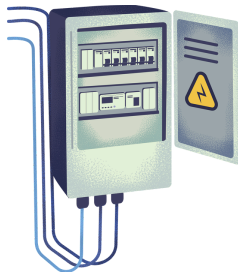

by AfroManifesto

## Alliance of Citizens For Change

### Electricity

- We will fix load shedding in 100 days. Our clean alternative energy programme will include coal as a base for sustainable development.

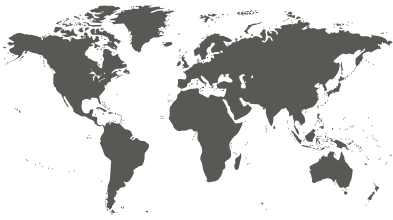

### Employment

- Our raw materials are our wealth. We will use them for job creation in the entire value-chain and only export net products
- We will half unemployment in 6 years by creating 6 million jobs through energy independence, and radical industrialisation programmes.

## International Politics

- Our International Relations Policy will put South Africa first and our interests as a nation. We will never sell the country to the highest bidder. Our sovereignty is sacrosanct to A.C.C. We must never shy away from speaking out against those who violate human rights irrespective of who they are, their geopolitical environment or how powerful they may be.

## Education

- Free education from grade zero to the first degree.
- We will introduce prayer and religious education as part of the curriculum in schools.
- A 70/30 % rule in the job market. For every 10 jobs, 7 will be reserved for South African citizens and the other 3 can go to any LEGAL immigrant. We are about South Africans citizens first.

## Manifesto Summary

### Health

- Health Centres within a 5km radius to all households.
- Sanitary pads will be free like condoms in South Africa.
- We will eradicate the bucket system in South Africa and give every household full access to piped water, electricity, and a title deed.

### Crime

- Death penalty for murderers. This will help prevent the senseless murders of innocent people in our communities. We need to restore law and order. It is now or never!
- Life imprisonment for rapists, without an option for parole.
- Life imprisonment for fraud and corruption, including politicians and public officials, without an option for parole.
- Life imprisonment for those who are convicted of drug-related crimes, without an option for parole.
- A police station within a 5km radius to all households to reduce the scourge of crime and underreporting of criminal activities like rape and domestic violence.

## Crime

- We will bring back the old commandos to the police. This will help protect farm workers and farm owners so that we remove the threat to food security in our country.
- We will strengthen our borders and build a concrete wall across the entire South African border line. Illegal immigrants will be sent home to help them correct their status; this will stop migration criminality at our border control points.
