

# Manifesto Summary

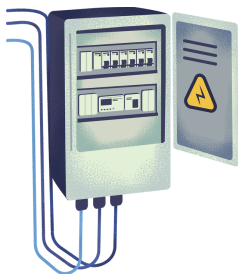

by AfroManifesto

## Build One South Africa with Mmusi Maimane

### Electricity

#### **Aim to achieve energy security and reliability by:**

- Ensuring that functional energy market players utilise traders and regulatory bodies (such as NERSA, NNR and Petroleum Agency SA) are accountable to energy end users through the promotion of their choice and participation in energy markets.
- Enabling the entrance of multiple energy companies that will ensure consistent and reliable electricity supply.
- Ensure that DMRE, utilities and regulatory bodies are fully capacitated with capable and competent professionals.
- I ensure that energy utilities and other related market players are free to raise capital to enable the modernisation and resilience of South Africa's energy infrastructure.

# BOSA Manifesto Summary

## Employment

- Fast tracking the growth of the SMME sector by increasing the financing and the availability of venture capital.
- Create a national venture fund for graduates from TVETS and Universities who want to create companies in line with our strategic manufacturing interests.
- Support the growth and development of SMMEs by ensuring greater access to large procurement value chains within the government.
- Establish a Jobs and Justice Fund to which businesses will contribute their empowerment funding and which will be administered by public finance professionals, not politicians.

# BOSA Manifesto Summary

## Education

- Make the pass mark 50%.
- Introduce an independent education ombud
- Raise salaries for educators and curtail unions' power
- Replace Life Orientation with an externally examined subject
- Incentivise students - financially reward top-performing pupils.
- Strategically focus on primary schools
- Implement tighter security at all schools
- Expanded programmes for underperforming learners allowing the 3 year FET phase (Grade 10, 11 & 12) to be expanded to 4 years.
- Reprioritising spending for digital learning and infrastructure to bridge the digital divide.
- Conduct a nationwide teacher skills audit.

# BOSA Manifesto Summary

## Crime

### Professionalise SAPS

- Rebuilding trust in SAPS through a focus on accountability through the improvement of police leadership and removal of corrupt and poor-performing members of SAPS
- Building capacity of SAPS at station level: We will recruit and train 120,000 new police officers to increase visible policing and boost specialised detective services at station level. Reversing the almost 10% decrease in police officers between 2012 and 2023 and bolster community-based services, leading to a more favourable police-to citizen ratio from 1:453 to 1:238
- ensure that resources and equipment, such as police vehicles and rape kits, are adequately funded, acquired and maintained for effective and efficient response from all SAPS stations.
- To combat crime effectively, we will usher in a new era of decentralised policing, bringing law enforcement closer to the communities they serve.
- Comprehensive anti-bias, racial sensitivity training will be mandatory for all police officers, including private security personnel.
