

Manifesto Summary

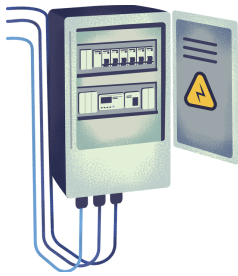

by AfroManifesto

Northern Cape Communities Movement

Electricity

- Harness the Northern Cape's abundant renewable energy potential and expedite the transition to clean energy sources, generating employment opportunities and reducing our ecological footprint.

Employment

- Actively market the Northern Cape as a prime investment destination, harnessing our natural resources, strategic location, and indigenous workforce.
- Facilitate diversification into renewable energy, eco-tourism, agribusiness, and technology.
- Prioritise the advancement of indigenous-owned small and medium enterprises (SMEs), providing them with financial assistance, mentorship, and market access to stimulate indigenous entrepreneurship and local economic resilience.

AfroManifesto

Northern Cape Communities Movement Manifesto Summary

International Politics

- Recognise the interconnectedness of our prosperity with neighbouring provinces and countries, we will prioritise collaborative endeavours and partnerships on shared indigenous development agendas.
- We will facilitate indigenous cross-border trade and investment, fostering economic integration and mutually beneficial relationships with neighbouring regions.
- We will advocate for peaceful conflict resolution mechanisms, fostering trust and solidarity among indigenous communities for shared prosperity and security.

Education

Quality Indigenous

- prioritise investments in education, ensuring equitable access to quality schooling and skills development programs for all indigenous peoples, empowering them to participate meaningfully in the economy.
- expand vocational training initiatives tailored to indigenous needs, equipping our youth with the skills necessary for gainful employment and indigenous entrepreneurship.
