## VryheidFront Plus/ Freedom Front Plus

### Electricity

- Prioritise the use of renewable energy.
- De-regulate the electricity sector to allow for competition between electricity suppliers.
- Unbundle eskom completely and privatise the separate entities
- Offer tax rebates for individuals and businesses that make use of alternative energy sources; and surplus electricity generated by households and businesses should be bought at competitive tariffs.
- Utilise the under-developed parts of south africa, like the northern and western cape, for harvesting renewable energy; and upgrade the transmission grid to transmit electricity from these areas to cities.

# VF Plus Manifesto Summary

## Crime

- Restore the integrity and functionality of the police service by getting rid of corrupt members; not making politically-motivated appointments; and by offering promotions based on expertise and experience.
- Private expenditure on safety and security should be tax deductible.
- Establish an effective crime intelligence unit focused on the prevention of crime without infringing on citizens' rights
- Establish specialised units to address violent crime and the illegal firearms trade.
- Protect competent citizens' right to own a firearm.
- Farm attacks should be declared a priority crime and adequate resources should be allocated to rural safety.
- The police's rural safety plan should involve and empower private rural safety networks.
- Decisive action should be taken against drug trafficking by, for instance, effectively intercepting drugs smuggled across our country's borders
- Prosecution-driven crime investigating units should be created to properly prosecute organised crime and especially child and human trafficking.
- Restore border control, act against corrupt officials and address illegal immigration
